SUMMARY

Innovative and detail-oriented Flutter developer with expertise in Dart, focused on delivering seamless, cross-platform mobile experiences. Proficient in implementing user authentication, real-time notifications, API integration, and managing application state using BLoC patterns.

PROFESSIONAL EXPERIENCE

Flutter Developer, Deal Makers Company   Dec 2024 - Present
- Designed and built an Android application that digitized the civic complaint ("Gunaso") process, eliminating the need for in-person visits to government offices.
- Prioritized citizen feedback and issue reporting, leading to improved transparency and quicker responses from local authorities.

Software Associate, Truenary Solutions   Nov 2023 - Mar 2024
- Developed auto booking mobile application integrating Google Maps.
- Integrated Firebase for user authentication and messaging.
- Implemented API integration and state management using the BLoC pattern.

PROJECTS

Bus Ticket Booking App   May 2025 - Present
- Developed a feature-rich Flutter app for a bus ticket booking platform, implementing two-way ticket booking logic using the BLoC pattern for robust state management.
- Translated Figma UI designs into responsive, pixel-perfect Flutter screens, ensuring a smooth user experience across different devices.
- Integrated RESTful APIs to handle ticket data, bookings, and schedule management, with clean architecture principles for scalable and maintainable code.

TECHNICAL SKILLS
